

CARLSSON'S DESIGN-PROGRAM FOR SMART – FUN AND INDIVIDUALITY GUARANTEED!!!

Carlsson is now giving you the choice of a full-range design-program for SMART. This individual, fresh look developed by Carlsson will enable the small but smart trend-setter to gain its position on the automobile walk of fame. Carlsson's aerodynamic shape is tailor-made for this city-runabout and adds the typical sharp, sporty Carlsson look. The fact that it stabilizes the vehicle at higher speed can only be regarded as an extra value asset. Carlsson 16-inch-wheels on the front and 17-inch-wheels on the rear axle, lowering and the sport exhaust lead to enhanced steering and driving dynamics. The futuristic aluminium interior equipment is the ideal complementary match for this perfectly styled cult car. Carlsson's SMART...go your own way!!!

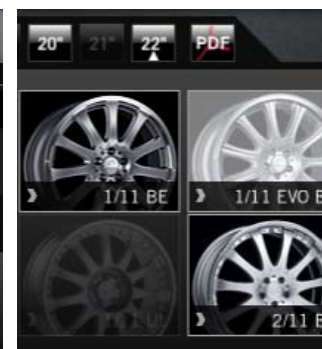

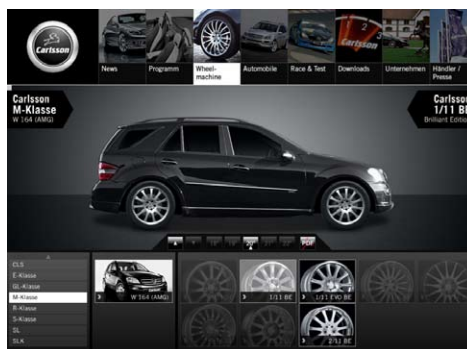

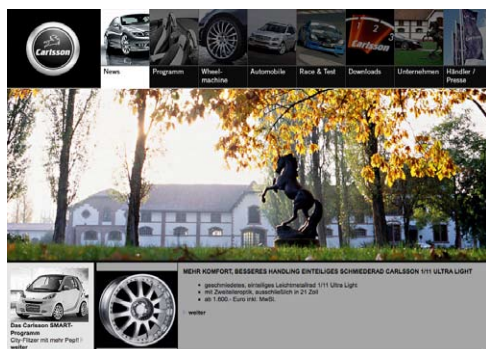

REVISED: THE NEW CARLSSON WEB SITE WITH "WHEEL MACHINE"

- ✓ **Faster, well arranged and even more customer-friendly**
- ✓ **NEW: "Wheel Machine"**

The automobile manufacturer Carlsson has improved its web presence with an extensive re-launch. The visitors profit from numerous advancements. The web site offers a better overview by a menu navigation system that was developed according to the Eye/Hand Analysis method by the University of London. On the Carlsson web site, customers are now able to see the complete Carlsson tuning & styling programme for Mercedes-Benz. Ebenfalls

- ✓ **Complete tuning programme for Mercedes-Benz automobiles**
- ✓ **www.carlsson.de**

neu ist die neu entwickelte Wheel-Machine. The completely new "Wheel Machine" is another novelty. This elaborate new feature enables the visitor to virtually "fit" Carlsson light alloy wheels to his car and allow them to see which design looks the best. The "Wheel Machine" from Carlsson also offers an option to "lower" the car and give a picture of the sporty look that can be achieved by lowering the suspension. Best if tested!

COMPLETE WINTER WHEELSET DESIGN 1/11 BE FOR YOUR ML AND GL IN 20"

Strong wheels need a strong design. The goal of Carlsson engineers was to develop a sporty but elegant wheel design combining a relatively low weight with high stability. The wheel-spoke design of 1/11BE is the ultimate solution for a weight-optimized wheel.

- one piece 11-spoke wheel
- available for current MB-vehicles
- unique wheel surface refinement in the Mercedes-Benz tuning sector
